

The SpaceVac is designed for High-Level cleaning. With no need for scaffolding, save time by covering up to 3 times the area when cleaning from the floor.

Each set reaches at least 10m including the head attachment, allowing the SpaceVac to reach more than 4 storeys.

Attached with a wireless camera system, it provides real time streaming while cleaning. For safety, every pole and head tool has a unique safety locking mechanism that ensures non-separation during use.

## VERSATILE BRUSHES AND ACCESSORIES

Clean pipework, ducting, cable trays & walls

## UNIQUE LOCKING MECHANISM

Ensures non-separation during use

## CUSTOMISABLE SHAPES

Interlock at multiple angles to create custom configurations to reach into any space
